23.78 (5mm mortar joint)

The porous texture of terracotta allows natural ventilation and diffused light, creating interiors that breathe. These jalis are ideal for facades, partitions, and decorative walls, blending traditional artistry with modern architectural needs. Durable, weather-resistant, and eco-friendly, they offer both functionality and aesthetics. Every design reflects our dedication to preserving heritage while shaping contemporary spaces a perfect harmony of art, air, and earth.

Clay craftsmanship

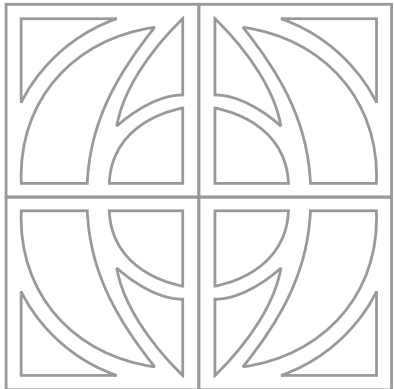

Natural texture, timeless earthy appeal.

Its breathable structure reduces heat and enhances energy efficiency, making it ideal for eco-friendly designs. Terracotta jalis add a traditional charm to contemporary spaces from homes, hotels, and offices to educational institutions and cultural centers. Each design blends artistry with durability, offering endless possibilities in patterns, textures, and applications that transform walls into living, breathing expressions of craftsmanship and architectural elegance.
